

PRESS RELEASE

UPDATE ON ISSUANCE OF ADDITIONAL AUTOMATED BIOMETRIC IDENTIFICATION SYSTEM (“ABIS”) LICENCES IN INDONESIA BY INTERBIO, A WHOLLY-OWNED SUBSIDIARY OF TOTM TECHNOLOGIES LIMITED

Singapore, 4 February 2026 – TOTM Technologies Limited (“**TOTM Technologies**” or the “**Company**”, and together with its subsidiaries, the “**Group**”) is pleased to update on the recent contracts secured by its wholly-owned subsidiary, PT. International Biometrics Indonesia (“**InterBio**”).

Issuance of Additional Automated Biometric Identification System (“ABIS”) Licences

Further to the Company’s announcement dated 2 January 2026, InterBio through its reseller partner, PT Indonesia Comnets Plus (“**IconPlus**”) has, on 2 February 2026, been awarded additional contract for the issuance of approximately 3.5 million ABIS licences.

The contract has an aggregate contract value of approximately IDR 9.6 billion, equivalent to approximately S\$728,000, which form part of the continuous national ID enrolment and biometric deduplication for the citizen of Indonesia.

“The issuance of this additional ABIS licence underscores our partners’ continued confidence in InterBio’s technical capabilities and consistent delivery track record. We remain committed to supporting the rollout of biometric identification systems across Indonesia, while executing our contractual obligations with discipline, accountability, and a strong focus on delivery,” said Mr Pierre Prunier, Executive Director of TOTM Technologies Limited.

About TOTM Technologies Limited

TOTM Technologies Limited (“TOTM Technologies” or the “Company” and together with its subsidiaries, the “Group”) is an integrated solutions and services provider specialising in identity management and biometric technologies.

Leveraging its execution experience and technology platforms from strategic partners, the Group has delivered and supported identity and biometric solutions for public sector and enterprise projects across North America, Europe, the Middle East, Asia Pacific, Latin America and Africa. The Group has experience in managing and maintaining large-scale national biometric identification systems, including databases with over 200 million enrolled citizens.

The Group's solutions are built on core multimodal biometric technologies, including facial, fingerprint and iris recognition, which have achieved top-tier performance rankings in National Institute of Standards and Technology ("NIST") benchmarks. The Group also provides electronic Know Your Customer ("eKYC") services to the financial institution, supporting the biometric-based customer onboarding and identity verification processes, as well as to law enforcement, supporting the biometric-based identification and surveillance.

In addition to government-led identity programmes, the Group has developed sector-specific platforms, including the Maritime Cloud Platform ("MCP"), which is designed to support digital identity, access control and operational requirements within the maritime industry.

More recently, the Group has initiated TOTM Labs, a dedicated innovation and research unit focused on emerging technologies including blockchain and artificial intelligence. TOTM Labs will explore industry use cases, partnerships and commercialisation opportunities relating to these disruptive technologies.

The Company is listed on the Catalist Board of the SGX-ST.
